

Very late maize - FAO 620/650

Group E2 - Single Cross Hybrid – Special brown grain
PANAM's Genetic – Registered EU catalog

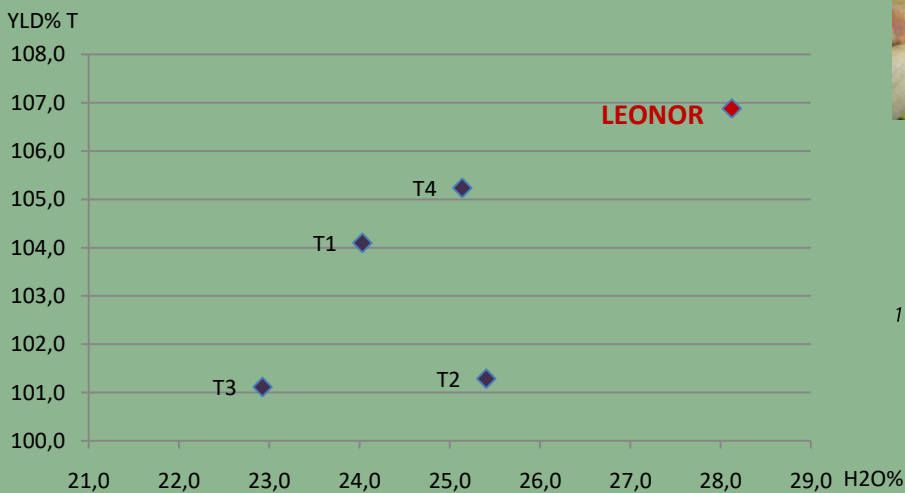

CARACTERISTICS

Plant Height: 9 (*Very high*)
Ear Height: 6,5 (*Medium to high*)
Seedling Vigor: 9 (*Very good*)
Lodging resistance: 7 (*Good*)
Stay green: 8,5 (*Very good*)

Growing degree days (Base 6)

Flowering	1050-1070 °C
Grain (32% H2O)	2050-2070 °C

TECHNICAL RESULTS

High and hardly plants
Long and regular ears
High yielding silage and

Average 4 trial locations – 2 years			
VARIETIES	H2O%	YLD% T	YLD q/ha
T1	24,0	104,09	131,2
T2	25,4	101,29	127,7
T3	22,9	101,11	127,5
T4	25,1	105,23	133,2
LEONOR	28,1	106,88	134,8

Development results - PANAM France

- Yield increased
- Very good grain qualities

Sowing density: from 70 000 to 75 000 grains/ha
